## **FAMOUSONMARS X SUSIE MAG** *INTERACTIVE INSTALLATION / POP UP*

**New York, October 11, 2017** – Famosonmars is extremely excited to partner with Susie Magazine for the Satellite Art Show, 2017. Each day, patrons who visit the booth will find something new to take part in - a rotating array of wearable art objects, a zine nook with feminist publications available to peruse and purchase, and fine art objects with a strong participatory component. The Famosonmars X Susie Mag booth is a feminist multi sensory installation not to be missed!

FAMOUSONMARS is an interactive installation created by fine artist AnnaLiisa Benston. It features art work, wearable art objects, and typically live tattooing with a strong focus on feminism, inclusiveness, and social codification. The presentation, for [Satellite Art Fair](#) during [Miami Art Basel](#), will act as one part arts installation and one part pop up shop where everything is for sale and most objects are meant to be worn.
